Wonder
- Activate thinking
- Generate curiosity
- Build background information
- Tap prior knowledge
- Frame questions for investigation

Investigate
- Conduct short and sustained research projects
- Integrate relevant information in multiple formats
- Construct meaning from text
- Use facts to build big ideas
- Manage search process
- Record information using own words
- Determine relationship between ideas

Synthesize
- Use facts to build meaning
- Connect ideas and infer
- Think analytically, advocate creatively
- Draw original conclusions
- Use vocabulary knowingly
- Create a product that conveys new understanding
Express
- Communicate and share new knowledge
- Use appropriate format for audience, task, and purpose
- Present information, findings and evidence
- Express information using the Internet and digital media

Reflect
- Engage in self-evaluation
- Re-assess process and product based on feedback
- Evaluate credibility, accuracy and limitations of sources
- Evaluate arguments and claims
- Participate in peer-evaluation
- Ask new questions for continuing inquiry

Ignite the Common Core with Inquiry
A W.I.S.E.R. Way to Teach
